

RETRACTION NOTE

Open Access

Retraction note: Serotonin 5-HT⁷ receptor agonist, LP-211, exacerbates Na⁺, K⁺-ATPase/Mg²⁺ ATPase imbalances in spinal cord-injured male rats

Abbas Norouzi-Javidan¹, Javad Javanbakht¹, Fardin Barati¹, Nahid Fakhraei¹, Fatemeh Mohammadi¹ and Ahmad Reza Dehpour^{1,2,3*}

Retraction

The Editor-in-Chief and Publisher have retracted this article [1] because the scientific integrity of the content cannot be guaranteed. An investigation by the Publisher found it to be one of a group of articles we have identified as showing evidence suggestive of attempts to subvert the peer review and publication system to inappropriately obtain or allocate authorship. This article showed evidence of plagiarism (most notably from the articles cited [2–5]) and authorship manipulation.
